Congratulations on accepting the challenge of competing as a member league of OSDA.

Don't let the name fool you; OSDA combines the most thrilling aspects of both old and modern rule sets to create a fast-moving, ultra-defensive game. Pure and simple. No gimmicks - just the incredible skill of the skaters.

OSDA membership is open to all; men, women, co-ed, flat track and banked track.

We are currently accepting applications for 2008. So if you are interested in becoming part of this exciting new organization, please review all the documents, and return the short application and League Representative Information Sheet.
